

RESPONSES TO QUESTIONS

RFQ EM-009-2024: REQUEST FOR QUALIFICATIONS FOR COMPLIANCE AND REPORTING

SERVICES *Last Revised 06.04.2024, 9:15 a.m.*

Q1: Does Efficiency Maine require specific certifications for the personnel performing onsite inspection services?

A1: Not at this time, although there may be some aspects of fast-charger site inspections that require specific electrical knowledge or credentials.

Q2: Does Efficiency Maine require on-site work for the invoice and documentation review?

A2: No.

Q3: Will selected vendor(s) be communicating directly with external entities and contractors that are relevant to the review, or will all document and data request files be provided by or facilitated by Efficiency Maine?

A3: Efficiency Maine will determine this on a project-by-project basis. In general, Efficiency Maine prefers communicating directly with customers and contractors. But in some cases, it may be simpler for a compliance vendor to ask a customer or vendor for a missing piece of paperwork.

Q4: Are bids considered confidential?

A4: No.
